New Psychiatric & Behavioral Health Support Available to Our Patients

September 1, 2026

Dear Patients and Families,

At Physician Senior Services, PLLC, our goal is to provide comprehensive, coordinated care that supports both the physical and emotional well-being of the residents we serve.

We are pleased to now offer psychiatric and behavioral health services as part of the care available to our current patients. These services are designed to work alongside your existing primary care services and may include routine screening, evaluation, ongoing support, and medication management when appropriate.

Psychiatric and behavioral health support may include care for concerns such as:

- Anxiety and depression
- Mood or sleep changes
- Memory or cognitive concerns
- Behavioral changes related to dementia
- Emotional or behavioral concerns that develop over time
- Review and management of psychiatric medications
- Ongoing follow-up and support for residents, families, and facility staff

As part of our ongoing care, patients may be offered routine mental health and cognitive screenings and additional support when needs are identified. Our goal is to recognize concerns early, provide convenient access to appropriate care, and continue coordinating closely with families and the residents' overall care team. This is consistent with the psychiatric service model outlined in our current materials, which includes psychiatric evaluations, behavioral health care, cognitive concerns, counseling, medication management, and ongoing collaboration with families and facility staff.

Participation in these services is optional. If you prefer that you or your family member not participate in routine psychiatric or behavioral health screening or services, please notify our office so that we may document your preference.

If you have questions, would like additional information, or feel that you or your family member may benefit from psychiatric or behavioral health support, please contact our office.

We appreciate the opportunity to continue caring for you and your family.

Warm regards,

Brian Stover, Administrator
Physician Senior Services, PLLC
